AWARDS

Safety Conscious Award

L&T and SUCG-JV

Best Safety Officer Award

Tata Consulting Engineering Ltd.

SUMMARY

I have a terrific mindset, am well-organised and detail-orientated, can handle pressure and tight deadlines, and perform well under pressure. In addition to wanting the chance to learn more about corporations, I'm seeking a creative, demanding, and growth-orientated position. This role sounds like a good fit between what you require and what I can achieve. I've worked in the HSE field for twenty years, with a focus on certain responsibilities. This experience has equipped me with a robust understanding of health and safety regulations, enabling me to implement effective strategies that enhance workplace safety. I am eager to contribute my expertise and drive to a dynamic team that values innovation and continuous improvement.

EXPERIENCE

HSE engineer

Parsons International Limited *Mar 2025 - Present*

Key roles and responsibilities:

- **Risk Management & Compliance:** Identifying, assessing, and eliminating potential workplace hazards by performing risk assessments (HIRA/JSA) and ensuring compliance with local, state, and federal laws, such as OSHA.
- **Policy Development & Implementation:** Designing, updating, and enforcing comprehensive HSE policies, procedures, and management systems.
- **Inspections & Audits:** Regularly auditing facilities, machinery, and safety equipment to ensure they meet standards and recommending corrective actions.
- **Incident Investigation:** Leading investigations into accidents, injuries, or near-misses to determine root causes and implementing measures to prevent reoccurrence.
- **Training & Education:** Conducting safety training, toolbox talks, and emergency drills (e.g., fire, evacuation) to raise PIL Staff awareness.
- **Environmental & Safety Reporting:** Monitoring environmental impacts and producing reports on safety statistics, incidents, and performance indicators.
- **Welfare/Wellness:** Ensuring worker welfare, which may include managing accommodation, health initiatives, and, in some contexts, psychosocial support for staff in high-risk environments.
- **Documentation & Reporting:** Maintaining data, reviewing logs, and reporting KPIs (like LTIR/TRIR) to management
